## Supervisor Exclusion Analysis

### Wisconsin Human Resources Handbook Chapter 324

Attachment # 3

This information is to be provided by the position's supervisor and reviewed by the agency central office personnel representative for both filled and vacant positions and must be submitted as part of any Position Description (PD) for a position performing supervisory responsibilities (i.e., if # 13 of the PD is checked YES). This information will be used to determine (1) if the position is performing supervisory functions and thus should be allocated to a supervisory classification and (2) what supervisory classification is appropriate based on the total duties of the position.

According to s. 111.81(19), Wis. Stats., a supervisor is any individual "who has authority, in the interest of the employer, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline employees, or to adjust their grievances, or to authoritatively recommend such actions" and "whose principal work is different from that of the subordinates." The criteria used by the Wisconsin Employment Relations Commission (WERC) to apply this definition include: the authority to effectively recommend the hiring, promotion, transfer, discipline or discharge of employees; the authority to direct and assign the workforce; the number of employees supervised (typically a minimum of 3 FTE permanent employees); the amount of time spent supervising; the number of other persons exercising greater, similar or lesser degrees of authority over the same employees; the level of pay, including an evaluation of whether the supervisor is paid for skill or supervision of employees; whether the supervisor is primarily supervising an activity or is primarily supervising employees performing the activity; whether the supervisor is a working supervisor or whether he/she spends a substantial majority of his/her time supervising employees; and the amount of independent judgment and discretion exercised in the supervision of employees. The WERC ultimately determines the appropriateness of supervisory exclusions.
